It changed the world. But for the wrong reasons. The biggest problem is not 9/11 but 7/10: October 7 when the Bush administration started the "war on terror" in a mistaken or deliberate attempt to capitalize on that fateful day: 9/11. But their deficient and opportunistic interpretation of the event has created a world much more unstable than any time since 1945.

Danmark skal deltage med elitesoldater, F16-fly og diverse andet i krigen i og over Afghanistan. Da denne håndtering har været analysefri og uden tegn på selvstændig holdning eller anvendelse af etiske principper har denne konkrete beslutning samme karakter.
